

# STOP B.E.S.S BATTERY ENERGY STORAGE SYSTEMS IN SKAGIT COUNTY

**Make Your Voice Heard NOW!**

## PETITION TO JOIN CLASS ACTION AGAINST THE GOLDENEYE BATTERY PROJECT

Dear Fellow Skagit County Residents,

We urge you to join our petition for a class action lawsuit against the proposed Goldeneye Battery Energy Storage System (BESS) near Hansen Creek. This 200-megawatt lithium battery installation threatens our community's safety, environment, and way of life.

### Key Concerns:

1. **Environmental Threat:** Endangers salmon in Hansen Creek, Skagit River and risks contaminating our water.
2. **Public Safety Risk:** Potential for high-temperature metal fires our emergency services can't handle.
3. **Agricultural Impact:** Removes prime farmland from production.
4. **Improper Approval:** Concerns about project classification and approval process.
5. **Community Opposition:** Over 230 residents have voiced concerns, but we need a unified legal stance.

### Joining the Class Action:

- Stand with neighbors to protect our community,
- Add your voice to a legal effort to stop this hazardous project,
- Ensure your voice can be heard in court,
- Potentially recover damages for impacts on property value,

**How to Join:** Sign below to express interest in joining the petition to promote a lawsuit. This allows us to contact you with more information **but does not obligate you.**

[ ] Yes, I'm interested in joining the petition for a class action lawsuit against ALL B.E.S.S. projects  
(**Note:** Signing does not constitute legal representation.)
